Metalworking and CNC Machine Tool Show 2020 Came to a Successful Close

The Metalworking and CNC Machine Tool Show 2020 (MWCS 2020), one of the core exhibitions of the 22nd China International Industry Fair, was concluded with a grand success on 19 September at the National Exhibition and Convention Center (Shanghai). This great victory has pressed the button of reboot for the manufacturing demand in the post-pandemic era. More than 400 companies have presented cutting-edge technologies for the entire industrial chain of metal plates on a total exhibition area of 116,000 sqm. 191,792 trade visits attended these international industrial events to have a personally experience.

MWCS 2020 is divided into three exhibition areas based on exhibit categories: laser processing and metal plate punching technology, metal cutting and manufacturing, and auxiliary and functional parts of machine tools. More than 400 well-known exhibitors including Trumpf, Bystronic, Prima Power, Salvagnini, Mitsubishi, Murata, Han's Laser, Yawei, HG Tech, Smart Prima, Lead Laser, Accurpress, DNE, HSG, Deratech, Hymson, Penta Laser, Jinaolan, Chonglee, ACL, Jinqiang, IPG, Precitec, Raycus, Max, Lissmac, Wila, Stoeber, Henga, Siegmund, Atlanta, Chenlong and Chuangheng have displayed all sorts of high-end metal cutters and metal forming tools, as well as key functional components such as CNC, power and transmission and cutting tools.

Boost confidence in global industrial development

Show Scale: 60,000sqm
 9 Industrial exhibitions take place in the same period, occupies 245,000sqm exhibition ground with 2,238 exhibitors in total.

Exhibitors: 400+

Trade Visitors: 191,792

*The list above is part of logos of MWCS 2020 Exhibitors and in no particular order.

Annual New Product Launching Platform

100+ Laser Processing Equipment

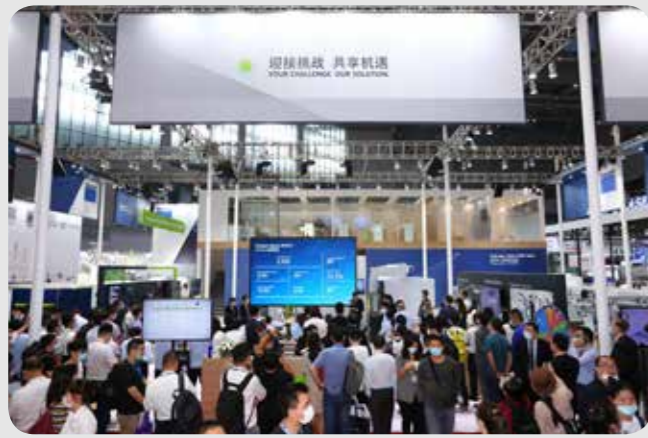

10+ International New Product Launching Events

20+ Lasers and other Components

40+ Bending Technology Brands

New products launched on MWCS 2020

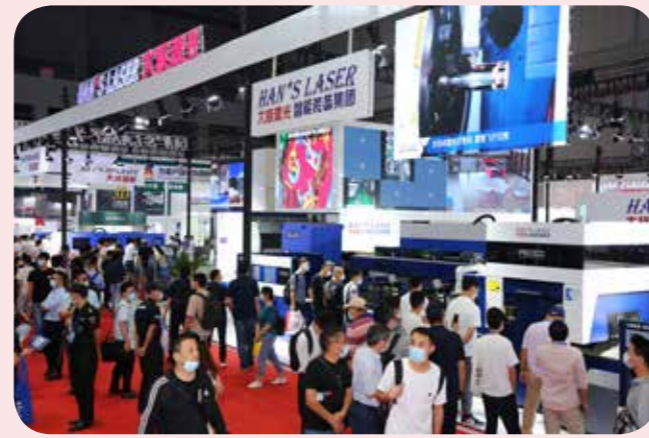

**General Manager of Machine Tool Division
Trumpf China Co., Ltd.**

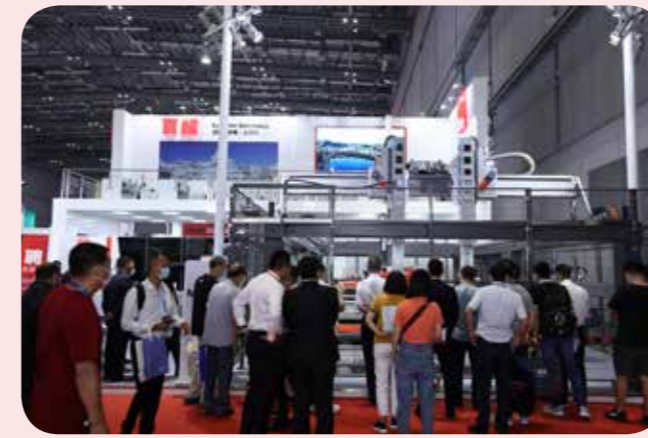

Gu Yongling

MWCS 2020 maintained its *professionalism and quality* even under the impact of COVID-19 pandemic. Trumpf presented its *upgraded sheet metal solutions* on this year's show, including upgraded high power laser cutting machine, upgraded laser welding machine and newly launched high-end laser tube cutting machine, all the products attracted attentions from the visitors. At present, China manufacturing industry is in the complex upgrading and transformation phase, the challenge and the opportunity are presented at the same time. I believe *innovation, transformation and quality oriented* strategies are the right approaches. MWCS is a good platform to gather manufacturers and the end users, so they can discuss and find the solutions for the industry. I am looking forward to *meeting all the friends from the industry in MWCS 2021.*

**General Manager of Han's Laser Smart Equipment Group
Chen Yan**

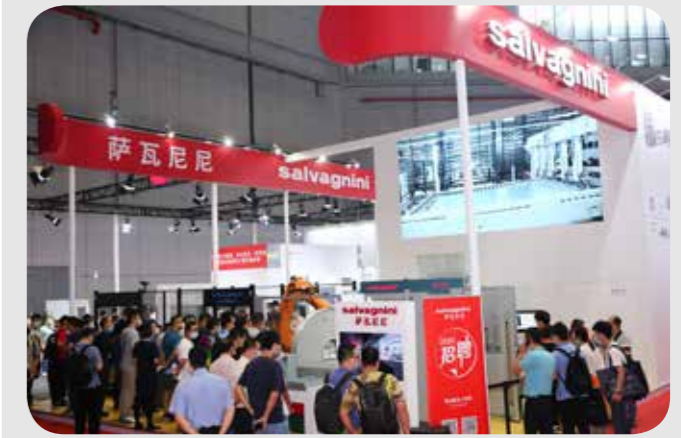

MWCS 2020 was no doubt a special edition because of the COVID-19 pandemic, the success of MWCS 2020 represented the confidence and dynamics of Chinese economy. During 2020, Han's Laser forges ahead with the strategy of innovation, expanding and integration. *On the 1500 sqm. exhibition grounds,* Han's Laser presented our outstanding laser cutting, welding machines and automation solutions together with our lasers, components and CNC systems. The conclusion of MWCS 2020 was not the end but the new start of innovative development of "made in China", in 2021 we will bring new products and technologies to MWCS.

**President of Bystronic China
Dr. You Song**

We appreciate the platforms MWCS organizers put together, the pre-show, onsite and e-commerce services provided by the organizers were excellent.

As one of the eye-catching booth, Bystronic presented *cutting edge, intelligent, digitalized and networking featured sheet metal technologies and solutions,* including the *newly launched* ByStar Fiber 4020/12kW fiber laser, the laser automated loading and unloading with BySort sorting system, and bending robots. Along with the show the online Bystronic components sale was well accepted by our customers and had excellent result. We sincerely wish MWCS a brighter future.

Managing Director of Salvagnini International Trading Shanghai Ltd.

Xiao Weixing

MWCS is the leading trading platform of metal working industry, Salvagnini *has participated MWCS for 10 years* and has enjoyed this high quality exchanging and showcasing platform. Because of the impact brought by COVID-19 pandemic, metal working industry also suffered, nevertheless thanks to the efficient measures Chinese government has implemented, the Chinese economy has started to recover, Salvagnini is one of the beneficiaries. *Salvagnini had a fruitful result at this year's MWCS,* we are going to *cooperate with MWCS as usual in the future* and bring *world class cutting edge sheet metal technologies* to Chinese end users.

**General Manager of PrimaPower China
Pei Jin**

Through the years, *MWCS was always on PrimaPower's trade fair agenda.* This year because of the COVID-19 pandemic, MWCS became *the only trade fair PrimaPower participated worldwide,* it carried our confidence and expectations. We are glad the visitor numbers were increased even under the pandemic and *we had a fruitful result during the show.* We are going to participate and support MWCS in the future with our advancing products and technologies. *Wish MWCS all the best!*

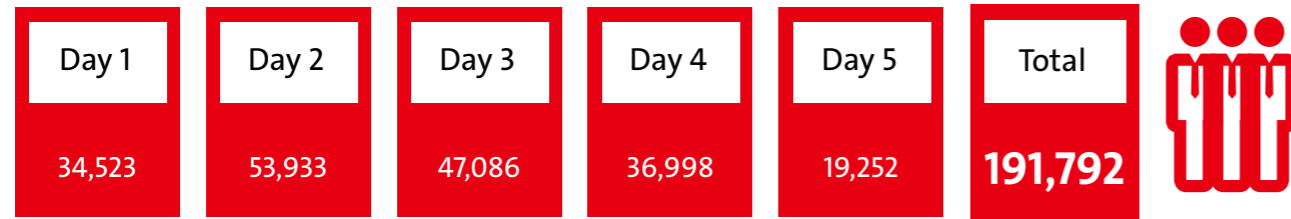

Director/ Depute General Manager of Jiangsu Yawei Machine-Tool Co., Ltd.

Pan Enhai

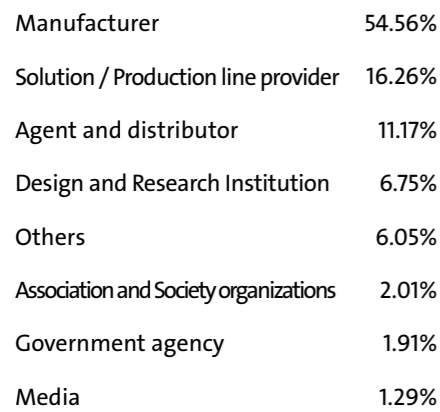

Under the impact of COVID-19 pandemic, *the success of MWCS 2020 brought confidence to the sheet metal industry.* The thoughtful arrangement, excellent media coverage of MWCS 2020 provided exhibitors a good trading platform. Yawei brought ultra-high power laser cutting machine, intelligent flexible processing center and intelligent industry IoT platform to MWCS 2020 and received high attention from the visitors, our *digitalized, flexible, automated and intelligent sheet metal processing solutions* are the leading solutions for sheet metal processing industry.

CHINT Electric Co., Ltd.

Our congratulations to the successful conclusion of CIIF 2020. CIIF is the show we must visit every year, this year we organized more than 200 staff from our Shanghai, Wenzhou and Hangzhou plants to visit CIIF, the result was fruitful. From product design to supply chain and assembling demonstration, all the international and domestic equipment producer showcased the trend of "made in China", China owned technology and self developed equipment had significant share on the show. CIIF 2020 showed the world high quality "made in China" equipment.

Jiangsu DMSSC Co., Ltd.

It's the seventh year DMSSC organized visit delegations to CIIF. Under the pressure of COVID-19 pandemic, the show organizers followed the measures of COVID-19 prevention in the meanwhile provided excellent services such as transportation and visit guiding, made the mega event successful. Although the visit flow was affected by the pandemic, the show was still worth to visit as usual. We obtained a lot of information about new technologies and products. We are grateful to the efforts the organizers put in the show and we are looking forward to visiting the show again next year.

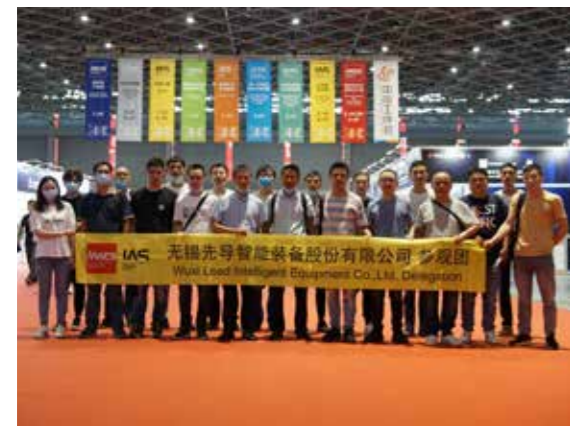

Philips Medical (Suzhou) Co., Ltd.

Due to the thoughtful efforts the organizers spent, this year CIIF maintained its mega scale and hosted mass number of exhibitors. This year we organized a 60 members delegation to the show, through the show we obtained trends and new concepts of industrial automation and by observing the onsite demonstration and solutions we learned numeric cutting edge intelligent manufacturing technologies. The visiting experience was excellent and we are looking forward to visiting the show again next year.

Wuxi Lead Intelligent Equipment Co., Ltd.

We are a non-standard automation equipment manufacturer. This year we organized 100 staff as a delegation to visit CIIF. The show scale was huge and a lot of international leading brands participated the show, the hall arrangements were clear and professional. We discovered three types of products can be used to improve our current production process through the visit. Compare to other trade fairs, the organizers of CIIF provided more accurate information to us prior the show and guided us at onsite, those services allowed us to visit the show with planned purpose and made the visit more efficient, we were able to fish the visit within half day and had fruitful result.

There were **100** buyer's delegations participated 2020 MWCS
