Exhibitor Testimonial

“ We almost always follow an exhibition of PT. Pamerindo. We followed Manufacturing Surabaya as an indication of our company's existence to our client and customer. In addition, our goal is to meet the new customers and to introduce the newest product & technology to consumers in order to help consumers during the production process so that products more competitive, affordable, and high quality.

Tri Nuryanto

Sales manager, PT Otano Multi Mesindo

“ This is the first time we're joining the Manufacturing Surabaya exhibition. So far our experience of this exhibition is very good: A lot of attendees from various companies and industries. The exhibition fits perfectly with our company, which basically focuses on the fabrication of metal goods using laser-cutting technology. We are participating in this exhibition because we wish to expand our reach in the market, especially to other companies in metal fabrication, to companies making towing tools and machinery, or to customers who need a coffee roaster.

Visitor Testimonials

” I'm working in a CNG (Compressed Natural Gas) company. We came here to find a new vendor and we were successful! The exhibition is really exciting because we have the opportunity to see a lot of good and trustworthy vendors. I hope Pamerindo can continue holding this exhibition and bring more vendors so it becomes more crowded.

Akhmad Hudan R.H
PT. Citra Nusantara Energi

” Manufacturing Surabaya is a very useful exhibition because the show displayed the newest technology that would increase the effectiveness of the industry, especially to further and assist the industrial development of Central Java. In the future, we are going to bring more visitors, especially people with a direct interest in the manufacturing industry.

Dr. H. Alwin Basri
Ketua komisi D DPRD Provinsi Jawa Tengah

” I know this exhibition from our vendor, Autonics System. We consider the event very good; because the information given was very precise and we were able to right away find the tools we needed for the development of our plant, in Gresik, Manyar. In addition, the exhibition was able to grant us insight into latest technologies available. I hope that in the future the exhibition can grow even further.

Julkitis Silutonga
PT. Cahaya Maju Lestari
