## Exhibitors Feedback

### TV MEDIA REPORTS:

#### MEPCO:

**Nada Baajajah** - Marketing Manager

Our presence today in the International Paper Exhibition, which is one of the most prominent and important exhibitions that take place in the Middle East, is an important presence to exchange experiences with suppliers and customers in general. We have been participating in PAPER-ME for the past 8 or 10 years, and we are one of the largest pavilions in it. Actually, year by year, there is always coordination and developments that keep pace with technology. I would like to thank them for this remarkable organization.

#### Obeikan:

**Ahmed Al-Jabri** - Direct Sales Officer

In fact, Egypt is one of the largest markets for us, which we are targeting strongly in a wide scale to invest during the upcoming period. The organization this year is much better, in addition to the difference from the previous year, where many visitors from Africa, Libya, Iraq, Palestine and many other countries visited it.

## Egypt Pulp: **Ahmed Yasser Abdel Aal**

*Project Development Manager*

This is the 6th or 7th participation for us, since the start of the exhibition in 2008. The exhibition this year is much better than last year, the organization is better, the space is better, and the number of exhibitors is more diverse than last year, and we have the possibility that we can see what is in the market more than last year.

## Pack Tech: **Alaa El-dein Majid - CEO**

The organizing company took the risk that it is running the exhibition at this time, but the exhibition is wonderful and this is an indication that there is a good economic climate in Egypt. I did not expect this wonderful organization during the Covid 19 crisis in the world. I thank the organizing company and wish them the best of luck.
